Classroom Workshops
Fall 2022

Imagination Portraits
Artist Gregory Warmack, aka “Mr. Imagination,” turned paint brushes into personalities. Let’s do the same! Each student will get one paintbrush, Apoxie sculpt, and baubles to apply as decoration. This is a messy project. Recommended for grades 3-8.

Contact Mavet for more information: groupvisits@avam.org

Memory Bottles
Inspired by memory jugs featured in the current exhibition “Abundance: Too Much, Too Little, Just Right,” students will create their own memory bottle using recycled materials and found objects. Recommended for grades 6 and up.

Leonard Knight’s Love Balloon Collage
Artist Leonard Knight spent 10 years creating his hot air balloon in order to spread the religious message “God is Love.” In this workshop, students will create their own hot air balloon using tissue paper, glue and bling. Let’s spread positivity through art! Recommended for all ages.

Esther Krinitz Story Cloth
Esther Krinitz’s hand sewn tapestries depict her memories of survival during the Nazi invasion of Poland in the midst of The Holocaust. In this workshop, students will be asked to create their own story in fabric, no sewing required. Recommended for grades 6 and up.

Educators will be emailed a pre-visit packet when booking this workshop to prepare students for the experience.
